WATER AND SEWR AUTHORITY NEWS

Water Meter Replacement Project

For the past two years, the Mount Holly Springs Borough Authority has been replacing old water meters. The replacements are new radio read water meters. The Authority's staff will leave a notice on your front door when they visited to replace your meter. If you receive a notice, please call Jim Williams at 717-226-1800 or John Shope at 717-386-6943 to reschedule installation.

Water Emergency Notification

This notice is for all Mount Holly Springs Borough Authority water customers. On January 5, 2017, there was a "Boil Water Advisory." Customers for whom we had contact information were notified. If you have a new or unlisted phone number, or if you use a cell phone for your primary phone number, you may have not been contacted. It is important that we add your phone number to the notification list.

If you were not contacted and wish to be contacted when there is an emergency, please call Pat at 717-486-7601.

Water Bills

Note that to save costs, the Water Authority will no longer send reminder notices for past-due water bills. Pay promptly from your original bill.

What Goes Down...

Council members Goshorn and Daniels recently toured the Waste Water Treatment plant on Mill Street, courtesy Supervisor Jim Williams. They learned a lot about how our waste water is made safe for release to Mountain Creek and encourage you to be good stewards of what you send to the plant for processing.

Remember to change your smoke detector batteries

We recommend you change your smoke detector and carbon dioxide detector batteries twice each year to ensure they are working as they should be.

The activities of this office contribute directly to protecting and promoting your safety and health and ensuring coordinated and reasonable development within the Borough. Here are a few reminders:

Junk Vehicles

Any vehicle without a valid registration or inspection cannot be stored within the Borough limits unless it is stored within an enclosed garage. No car parts or portions of vehicles can be stored outside.
